**Email: [shawnsteel@shawnsteel.com](mailto:shawnsteel@shawnsteel.com)**

**10 FREQUENTLY ASKED  
QUESTIONS BY WHIPLASH  
PATIENTS: Part Two**

**LEWKOVICH ANSWERS.**

4. Is Chiropractic care safe?

- Most new patients are surprised with how gentle chiropractic is. Chiropractors are busy because patients get relief. Even with sensitive cases the vast majority of patients return. DC's are more safer and effective than RX, Surgery or doing nothing.

5. How many visits will I need?

- Treatment frequency varies considerably. Approximately 75% of uncomplicated whiplash injuries are released from non-scheduled care within 3 – 4 months. [ to be continued]

**Painkillers may increase risk of hearing loss**

It's not just loud rock and roll causing hearing damage. According Dr. Sharon Curhan of Brigham & Woman's Hospital in Boston examined records of some 26,000 men. As reported in the AJM the use of acetaminophen more than twice a week doubles the risk of hearing loss. [LA Times March 8, 2010](#)

**Good to a very strange PI cases**

**Excellent Management by Shant Karayan  
DC –Burbank- \$650,000.00**

Carol Austin nearly qualified to become an LAX airport policewoman, but her accident with company owned truck driven by defendant changed everything on the 405 Freeway.

Dr. Karayan undertook extensive efforts to help Carol try to finish her LAX airport training. But even after 3 epidural injections her complaints were still livid. Karayan determined that the C5/6 disk was indenting the anterior cord. The DC referred Carol to a neurosurgeon for an anterior discetomy.

In mediation defendant agreed to pay some \$650,000. [Austin vs. Contrast Lighting](#), LA Superior Court, Santa Monica 2/24/09. This matter was handled by our office.

**Severe tooth issues along with  
chiropractic alleged–Alameda - \$2,114.00**

Greg Humphrey was struck in the rear in his SUV by another SUV on Route 92. SUV damage was \$1,014. Most unusual was Humphrey's claim of significant injuries to his mouth—which required root canals, extractions, and bridge work—over \$12,000 worth.

St Farm quickly argued that it was physically impossible for any dental damage to have occurred—from such a low speed accident—**no mechanism of injury**. No paramedics or emergency room. That Humphrey's dental problem was from severe long term dental decay. Jury paid DC's bills. St Farm will get court fees. [Alameda Superior Court HG 073 318 65, Judge George Hernandez](#)
