**The Easy Clean PI Report: Part 8
8. X Ray Findings**

Only DCs, radiologists and orthos are qualified to read film. When your patient's case involve moderate to heavy trauma ALWAYS refer your patient to a local DACBR.

DACBRs are very credible, provide extra malpractice protection and provide greater detail of the injuries. Quote the DACBR.

DC vs. DC: Jury agrees with the treating DC

Perhaps Mike Blum DC, North Hollywood might want to hold some seminars on how to defend his treatment against a formable DC who had served on the Board of Chiropractic Examiners.

A simple case, Felix Brenner's car was rammed by a 1997 pickup truck. Felix was driving his 2000 F-150 on the 101 Freeway, when he was rear ended.

Brenner incurred only \$4,142 in medical bills. He also lost money from work. The jury bought it all, and awarded Felix **\$36,465.00**

Brenner vs. Lee, Los Angeles Superior Court BC 324 156

THE LESSON: When the defendant is prepared to spend \$5000 on a DC expert against your case, get prepared. You will prevail when you have reasonable bills, intelligent diagnosis, and smart prognosis and well prepared.

Chiropractic Unity: Join March 21st call marathon.

**Most DC's don't belong to anything.
There's no protection living like a hermit.**

More than ever chiropractors' natural predators are seeking to limit payment and your scope. One March 21, 2007, 100 volunteers from the California Chiropractic Association will be calling every non-member in California to join CCA. We urge you to take the call and support the association.
