FINALLY

The Clean & Easy PI Report: Part 11

EVERY PATIENT IS DISABLED

This surprises a lot of doctors. However, in PI when any patient needs to get DC care they must be "Disabled"

Injury implies some form of disability. The job for the DC is to "measure "the extent of disability.

There are only 2 forms of disability for PI. Work and Non Work.

Work disability only requires the DC to state the number of days the patient lost from work.

Non Work disability requires a time measurement of some common ADL's your patient cannot perform because of the accident. (e-mail us for ADL Form)

For example: 1] the patient could not sew for 3 months following the accident; 2] or could not garden for 4 weeks; 3] or could not go to the gym for 60 days. Each of these altered ADL's is worth money that the jury can award.

Being specific with Disability losses always increases the value of your patient's case.

No Cost Teleconference on PI only
Thursday, May 10th at 1:00 pm
Come join the fun. We are hosting monthly PI teleconferences answering your questions on PI.

So far we've discussed getting paid from PI attorneys who already settled your patient's case. We solved the problem when PI attorneys try to seize your med pay...and how to get it back.

We talk for only 30 minutes.

But we need your questions sent to me up front by email. Then we will contact you to let you know how you can personally ask you question during the teleconference.

For your telephone RSVP e-mail johntawlian@shawnsteel.com. We have a limited capacity of calls we can handle at once, so be sure to register quickly.
